TRANSPORTATION:

One of the things that makes Jersey City so attractive is its access to a wide variety of transportation options. Harborside is situated just one mile from the Holland Tunnel, only minutes to Manhattan by car. It is also in close proximity to the New Jersey Turnpike and routes 1 and 9. Harborside Plazas 5 and 4A offers on-site public parking, making traveling by car easy and convenient. The PATH train offers a four-minute ride to Manhattan's World Trade Center Station and a 15-minute ride to Midtown Manhattan, with easy connections to New York City's subway system. Harborside also has an on-site, dedicated Hudson-Bergen Light Rail station, connecting you to Newport Center, Hoboken, Weehawken, and the rest of the NJ TRANSIT railway system. You can also save time and money using NY Waterway's ferry service from the Paulus Hook Terminal.

Each Plaza within Harborside boasts breathtaking views of the Manhattan Skyline, the New York Harbor, and the Statue of Liberty.
